Nationally Registered EMERGENCY MEDICAL TECHNICIAN (NREMT)

HOW TO MAINTAIN YOUR NATIONAL EMS CERTIFICATION *Recertification Requirements*

National Registry of
Emergency Medical Technicians®
THE NATION'S EMS CERTIFICATION™

Supporting the National EMS Education Standards

EMERGENCY MEDICAL TECHNICIAN (EMT) RECERTIFICATION REQUIREMENTS

Thank you for your commitment to recertification. NREMT certification gives you recognized credibility across the nation and demonstrates your desire to serve the public with the highest standards. Your certification will continue to serve you well during the course of your EMS career.

If your employer requires you to maintain your National Registry certification you must submit recertification materials to the NREMT for processing by February 15 (of the year your certification expires).

Recertification applications are mailed in November, prior to your expiration date. Completed applications must be postmarked no later than March 31 of the year your certification expires.

Recertification Application Options

Once you have completed the continuing education requirements indicated in this brochure, you can recertify in the following ways:

1. Complete the recertification form you will receive in the mail, and mail it back to the NREMT with signatures and supporting documentation OR
2. Download and complete a recertification form from the NREMT website OR
3. Log in to your NREMT account and use the online recertification process.

To Apply for Recertification You Need to:

1. Be actively working within an emergency medical service, rescue service, or patient health care facility using your EMT skills.
If you wish to request Inactive Status and this is your first recertification, you must provide documentation that you have worked in a patient care setting for at least six months.
2. Complete all recertification requirements.
3. Demonstrate continued cognitive competency through continuing education or examination.
4. Submit your completed recertification application prior to March 31 of the year your certification expires.

Continuing Education Option

Complete a total of 72 hours of education including:

- Completion of a State or CECBEMS (F1, F2, F5) approved 24 hour EMT Refresher Course
- Completion of 48 hours of additional continuing EMS related education as outlined in this brochure
- Pay the \$15 (U.S. funds) non-refundable processing fee at the time of submission of documentation

All continuing education hours, to include the refresher, must be completed within the current recertification cycle. Education completed prior to your previous March 31 expiration date will NOT be accepted. If this is your first recertification, only education

completed after the date of the initial certification will be accepted. See reverse side for detailed recertification requirements.

5. Maintain skills as verified by your Training Program Director, Director of Operations or Physician Medical Director. (Requires signature on your recertification application validating competency of skills).
6. Obtain current CPR certification at the appropriate level.

Exam Option

The recertification by examination option enables you to demonstrate continued cognitive competence without requiring you to document your continuing education.

- Log in to your NREMT account. Complete a recertification by examination application and pay the exam fee. Be sure you are completing the *recertification* application (and not the initial certification application)
- After 24-48 hours, go the NREMT website, log in to your account and print your Authorization to Test (ATT) letter. Follow the directions on the letter to schedule your exam
- Take and pass the exam between October 1 and March 31 (of the year your certification expires). You may make one attempt to demonstrate continued cognitive competency by taking an exam (in lieu of documenting continuing education). You will receive an abbreviated recertification application upon successful completion of the exam
- Return the abbreviated recertification application by March 31 (of the year your certification expires) with signatures and supporting documentation

All other recertification requirements (including felony statement, CPR, active affiliation/practice, verification of skills, etc.) must be met and verified.

Lapsed Certification

If your National EMS Certification lapsed as an EMT within a two-year period or you are currently state licensed as an EMT, you can obtain National EMS Certification by completing a State or CECBEMS (F1, F2, F5) approved 24 hour Refresher course or 24 hours of EMT education (see chart under "1. Refresher" for content topics and hours), within the past two years, and successfully completing the cognitive and psychomotor examinations.

If your EMS certification expired more than two years ago and your state licensure/certification has also

expired, you must complete an entire state-approved EMT-Basic/EMT course and complete the cognitive and psychomotor examinations.

Terms of Recertification

In applying for recertification, registrants agree to comply with all recertification requirements, rules and standards of the NREMT. The registrant bears the burden of demonstrating and maintaining compliance at all times. The NREMT considers individuals to be solely responsible for their certification. **Individuals must notify the NREMT within 30 days of change of mailing address.** Change of mailing address can be made via our website: www.nremt.org. **Individuals must notify the NREMT within 30 days of any felony convictions.**

Individuals must notify the NREMT within 30 days of any disciplinary action taken by any state that has resulted in the following:

- Suspension, revocation, or expiration of state registration/license
- Termination of right to practice
- Voluntary surrender of state registration/license while under investigation

Disciplinary Policy/Revocation of Certification

The NREMT has disciplinary procedures, rights of appeals, and due process within its policies. Individuals applying for certification or recertification who wish to exercise these rights may contact the NREMT for copies of the Disciplinary Procedures. Requests to appeal must be submitted within forty five (45) days of receipt of notice of a determination.

Audits

The NREMT reserves the right to investigate recertification material at any time. You must retain verification of attendance of all education they require. **Failure to submit documentation when audited will result in denial of eligibility to recertify.**
